

"Your building's smart assistant- adapting to your needs with modular, scalable control and lightning-fast optimization, all securely powered by iBOS Nexus."

What is Edge BMS?

Edge BMS is an innovative Building Management System, seamlessly installed on iBOS Nexus and designed to modernize building monitoring and control. With an intuitive user interface, users can effortlessly interact with the BMS, easily accessing controls, monitoring systems, and making adjustments.

Experience the future of building management with iBOS and Edge BMS, where innovation meets efficiency for intelligent and sustainable buildings.

Key benefits of Edge BMS:

Real-Time Monitoring: Track heating, ventilation, and air conditioning systems in real-time, ensuring optimal performance.

Remote Accessibility: Monitor and control building systems from anywhere with internet access, improving convenience and efficiency.

Integration Capabilities: Seamlessly integrate with IoT devices and sensors for comprehensive control and optimization.

Advanced Analytics: Analyze historical data to identify trends and optimize building performance for energy efficiency and cost savings.

iBOS Energy ready: Edge BMS integrates with iBOS Energy, which collaborates with iBOS Connect to provide access to your building systems.

Optimal performance: Seamless integration with iBOS delivers enhanced security and simplifies upgrades for an elevated user experience.

Alarm and Notification Systems: Receive alerts for potential issues, enabling prompt action and preventive maintenance.

Scalability: From small residential buildings to large commercial spaces, iBOS Edge BMS scales to meet the needs of various structures.

User Support and Training: Access comprehensive user support services through our Service Excellence Center, ensuring you maximize the benefits of Edge BMS effectively.

Trusted since 2001: Thousands of installations done since 2001 and many satisfied customers using it today.

SaaS: By doing continuous product updates with new features delivered, Edge BMS is sold as a SaaS-product.
